Inspired
by drive

For children and young adults in need of minimal to moderate support, the Kanga™ Pediatric Wheelchair offers tilt-in-space adjustability to maintain a proper sitting posture. The Kanga wheelchair grows from 10–14" in width and offers 45° of tilt for pressure relief and gravity-assisted positioning. For use with Inspired by Drive's newly available complex rehab seating option. Also accommodates other manufacturer's seating.

BENEFITS

Built-In Growth

FEATURES

- Folding frame tilt-in-space wheelchair with 45° of tilt
- Newly designed, reinforced frame
- Frame width can be adjusted to 10, 12, or 14" without added components
