Shown with Hi-Back
Wrap-Around Support

The AquaLift™ Bath System with postural support helps make bath time enjoyable and safe for users with poor balance and trunk control who are unable to sit in a standard bathtub. The functional and easy-to-use bath lift features a reclining back and rechargeable 14.4V “Smart” battery-operated lift mechanism.

BENEFITS

FEATURES

Safe Operation

- Waterproof, simple-to-use hand control safely and gradually lowers user into bathtub
- Safety mechanism prevents lift from lowering if battery charge is not sufficient to raise it back up

Adjusts to User Needs

- Seat height adjusts from 2–16" and back reclines from 8° off vertical to 22° at its lowest position
- Optional wrap-around back support and multiple positioning accessories available

Lightweight & Versatile

- Base unit weighs 21.25 lb.
- Supports up to 300 lb. and includes side flaps for easy lateral transfers

Travel-Friendly

- Tool-free assembly and installation
- Disassembles for easy storage or transport
- Fits most bathtubs
