

Marlin™ Bath Lift

BATHING

ACCESSORIES

Head and Trunk Support Pads

Contoured Chest Harness

Swivel and Transfer Aid

Rapid Dry Positioning Belt

The compact and easy-to-use Marlin™ Bath Lift features a reclining back and rechargeable battery-operated lift mechanism that is easy to transport or store when not in use.

BENEFITS

FEATURES

User Accommodation

- Seat height adjusts from 2.5–19" and back reclines from 10° off vertical to 50° at its lowest position
- Multiple positioning accessories available for postural support

Compact & Versatile

- Weighs 20.5 lb. and fits most bathtubs
- Supports up to 300 lb. and includes side flaps for easy lateral transfers

Easy Operation

- Waterproof, simple-to-use hand control safely and gradually lowers user into bathtub
- Safety mechanism prevents lift from lowering if battery charge is not sufficient to raise it back up

Travel-Friendly

- Tool-free assembly and installation
- Disassembles for easy storage or transport
